Reference: Notification of Statement on Power Drive™ Label

Dear Sirs,

This letter is to serve as notification that BIOTEST Laboratories, LLC. has included one of the statements listed in section 403 (r) (6) of the Federal Food, Drug, and Cosmetic Act on the labeling for the dietary supplement Power Drive™.

The text for which this disclaimer statement is used is as follows.

BIOTEST Laboratories helps athletes build the body of their dreams through strategically designed, nutritional solutions.

By tapping into the explosive, muscle-building chemicals of the brain, called neurotransmitters, Power Drive™ is designed to help users:

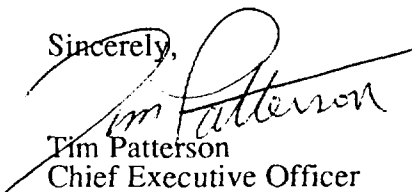

- Increase muscle-fiber recruitment and strength
- Accelerate training progress and muscular gains
- Achieve and sustain higher energy levels
- Heighten and focus concentration
- Boost motivation and mood
- Give a mental edge during competition

Power Drive contains a rich supply of tyrosine, the amino-acid precursor to the stimulatory neurotransmitters epinephrine, norepinephrine, and dopamine, which facilitate muscle-fiber recruitment, mental focus, and mood. Power Drive also provides ample amounts of phosphatidylcholine and DMAE to promote the production of acetylcholine, which supports motor control and memory.

A copy of this label is attached. See page 2.

I certify that the information contained in this notice is complete and accurate, and that BIOTEST Laboratories has substantiation that these statements are truthful and not misleading.

Sincerely,

Tim Patterson
Chief Executive Officer

NEW! BIOTEST

NEUROTRANSMITTER FORMULA

POWER DRIVE

**Energizing
TART ORANGE
Flavor**

Each Serving Contains:

L-Tyrosine	3,000 mg
Phosphatidylcholine	1,000 mg
DMAE (dimethylaminoethanol)	200 mg
Ginkgo Biloba	200 mg

Recommended Use: As a dietary supplement, consume on an empty stomach 30-60 minutes prior to training, participating in sports activities, or situations requiring intense or focused concentration.

Directions: Pour one rounded scoop (25 g) into 6 oz of cold water and shake for 20 seconds, or stir vigorously for 40 seconds. Do not exceed two servings per day.
